This is to certify that  
**Niranjan Rajesh**  
participated in the

## International Interdisciplinary Computational Cognitive Science Summer School

(<https://www.iicss.org>)  
September 11<sup>th</sup> - 15<sup>th</sup>, 2023  
In Tübingen, Germany

This one-week summer school covered computational approaches in the brain and cognitive sciences, including both theoretical models and practical techniques. Niranjan Rajesh received a travel grant of 100 Euro for participating at the summer school.

The following topics were covered in lectures and hands-on workshops:

- **Language modelling:** Prof. Marcel Binz, Dr. Andrew Lampinen, Dr. Jan Kirchner, Dr. Jennifer Hu
- **Cognitive Modelling:** Prof. Peter Dayan, Dr. Maria Eckstein
- **Applied Machine Learning:** Prof. Nicole Ludwig
- **Neuroscience:** John Jairo Madrid Carvajal

The summer school further included a panel discussion on “Governance of Large Language Models”, a tour of the institutes at the Max Planck institute in Tübingen, a hackathon, and Blitz talks by participants. Niranjan Rajesh contributed with a Blitz talk titled “Investigating brain-like CNNs and their consequences” and was part of the winning team for the hackathon track “Cognitive Modelling of Human and LLM Data”.
